PROFESSIONAL EXPERIENCE

Beyond Technical Inc. CEO 2015-Present

Game Production / Programming / Marketing / Project Management

Launched and released indie title Super Robot Jump Jump on PC via Steam. Operated a small team of four to bring the game to completion and operated in a multi faceted function to ensure the project shipped in a complete state and on time. Also acted as project lead for a vertical slice of a 3D procedurally generated title under the working name "Phase".

Video Producer GOMTv 2014-2015

Project Leader for Gaming Related Video Content

Operated as a member and team lead for a video content team based in Seoul, South Korea at GOMTv's primary production offices. Content ranged from tutorials, to reviews, to mini documentaries on games and E-sports.

24 Frame Video Playback Operator / Video Assist / DIT 2012-2014

Freelance for Film, Television, and Commercial

Performed many different variations of work for many productions in the film, television, and commercial industry. Work has been done in many different atmospheres with varying levels of independance and leadership required for the position. Many different physical tasks have also been required in order to prepare and disassemble a variety of different sets.
